PROFESSIONAL EXPERIENCE

Independent Financial Analyst | July 2024 – Present

Freelance – Self-Employed

Analyse revenue streams, operating costs and margin performance for small business clients to assess financial health and identify areas requiring management attention.

- Examine movements in revenue, expenditure and cash flow, translating findings into concise management reports and visual summaries.
- Build Excel-based reporting tools and Power BI dashboards to present key performance indicators in structured, decision-ready formats.
- Apply SQL and Power BI to structure, examine and communicate business performance information, going beyond dashboard delivery to interpret underlying financial questions.

TIFA Research - Project Maoni | Sept 2026 – Nov 2026

Quality Assurance Manager / Project Manager

Lead and supervised a 7-member team of enumerators, coordinating field assignments, daily activities, performance and adherence to project requirements.

- Managed end-to-end field data quality assurance, reviewing submissions for completeness, consistency, accuracy, duplicates and invalid records.
- Monitored response rates and fieldwork progress, identified gaps and operational issues, and coordinated corrective actions to keep data collection on track.
- Conducted quality checks on GPS coordinates, timestamps, survey logic and submission patterns to identify potential errors and irregularities.
- Provided real-time feedback, training and retraining to enumerators to improve adherence to data-collection procedures.
- Produced daily and weekly fieldwork reports consolidating team performance, data-quality findings, progress and operational updates for project management.
- Coordinated directly with the Project Manager, communicating field-level findings and supporting decisions on data collection and team operations.
- Used ODK and KoboToolbox to monitor submissions, review field data and support data-quality management throughout the project.
- Tracked and reported project-related expenditure, supporting accountability and efficient use of field resources.

Flekc Freight and Logistics | Dec 2023 - Aug 2024

Finance Account Associate

Prepared weekly budget-versus-actual reports, examining expenditure movements and highlighting deviations requiring management review.

- Reviewed bookkeeping records and account reconciliations in QuickBooks to maintain the accuracy and consistency of financial information.
- Monitored expenditure activity and flagged unusual movements requiring further follow-up, supporting financial control across logistics operations.
- Organised financial records and supporting documentation to facilitate reporting and audit readiness.
- Worked extensively in QuickBooks with additional exposure to Odoo in finance-related workflows.

UDPK / UNICEF / ILO – UNPRPD | *Sept 2025 – Oct 2025*

Field Data Analyst, Climate and Disability Research

- Collected and structured field research data on disability inclusion and climate-related issues using KoboToolbox and ODK.
- Conducted data quality checks, identifying inconsistencies and incomplete records to improve the reliability of research information.
- Prepared structured analytical summaries to support research reporting and interpretation.

UNICEF Kenya / KUDHEIHA Workers Union | *May 2025 – Aug 2025*

Field Data Analyst

- Supported field research examining disability inclusion and labour market conditions.
- Cleaned and validated datasets, identifying and resolving data quality issues to improve completeness for reporting.
- Prepared analytical summaries for research reporting and stakeholder review.

Certifications: Google Data Analytics Professional Certificate (Google / Coursera)

SELECTED FINANCIAL ANALYSIS PROJECTS

Independent projects applying financial analysis and data tools to real company data, beyond professional responsibilities.

EABL Equity Research and Valuation | *In Progress*
East African Breweries Plc | Excel, Financial Statement Analysis, Financial Modelling

- Analysing five years of company performance (FY2022–FY2026) covering revenue growth, operating profitability and earnings trends.
- Reviewing income statement performance including revenue, operating profit, PBT and PAT to assess historical financial trajectory.
- Examining geographical revenue contributions across Kenya, Uganda and Tanzania and investigating foreign exchange effects on reported earnings.
- Developing an analytical foundation for financial forecasting and company valuation.

Safaricom Financial Performance Dashboard | *Completed*
Power BI, DAX, Excel | Financial Performance Analysis

- Developed a five-page financial performance dashboard with 20 DAX measures, year-on-year comparisons and bookmark navigation for executive-facing reporting.
- Structured financial indicators into a reporting interface designed for performance review across periods.

Safaricom SQL Financial Analysis | *Completed*
SQL, PostgreSQL | Financial Data Analysis

- Queried and examined structured financial information from primary IFRS-adjusted data, investigating performance patterns, foreign exchange movements and capital expenditure trends.

Superstore Sales and Profitability Analysis | *Completed*
Excel, Power BI | Business Performance Analysis

- Analysed 9,994 transactions to examine sales and profitability patterns, identifying furniture discounting as an area where high sales volume did not produce strong margins.

Olist E-commerce Operations Dashboard | *Completed*
SQL, Power BI, DAX | Operational Performance Analysis

- Analysed 100,000 e-commerce orders using a star-schema data model, investigating the relationship between delivery delays and customer review scores across a five-page dashboard.

LEADERSHIP & DEVELOPMENT

- Active interest in leadership development, particularly the intersection of analytical thinking and business decision-making at management level.
- Building toward executive-facing roles by developing the ability to communicate financial and analytical findings clearly to senior stakeholders.
- Interested in pursuing CFA certification as part of a long-term financial analyst career path.
